## DEDICATION

Because of your love for young people and your interest in their education; because of your loyalty and service to our school; because you typify the sincere American citizen, we the Class of 1966 dedicate this annual issue of the JACKSONIAN to you, Mrs. Alma Abshire.

## TOMORROWS FUTURE DEPENDS UPON TODAYS EDUCATION

MR. CHARLES KENNEDY

Education: the knowledge, skill and development gained through instruction and training .-- D. Webster

Today the student must no longer be a passive agent but an active individual. The function of education is to guarantee the fullest all-around growth of one's self. The end of education is not the individual who had acquired a mass of information, much of which he will forget, but a united personality, socially active and contributing his best to society. It promotes the development of social aims and purposes because he learns to be critical and open minded, recognizing his duties as well as his responsibilities. Education encourages democracy's ideal—the realization of individuality.

MOTTO: Today We Follow; Tomorrow We Lead

COLORS: Blue and Silver

FLOWERS: Blue tipped Carnations OFFICERS: President--Judy Shiyan

Vice President--Chuck Szymanski

Secretary--Joan Howard Treasurer--Rosie Brubaker

As members of the Class of 1966 we often find ourselves looking back on our final year of high school. Electing class officers in September officially began the year's activities. Many of us participated in athletics, chbs, and other activities. Everyone kept busy trying to make this year the most exciting of our high school years.

Doing homework, filling out our college applications and participating in our class plays, "Bobby Sox", "The Half Hour", and "A Date for Bobby Sox", kept us busy. The fitting of caps and gowns, and the ordering of calling cards and invitations began our pre-graduation activities. The Senior From made us realize that graduation was almost here. Baccalaureate, May 22, and Commencement, May 27, were the concluding activities for the Class of 1966.

As we leave our high school days behind us, we take the memories of four worthwhile years of education combined with many fun-filled times.

## SENIOR CLASS WILLS

- Marcia Blair, in my sound state of mind and judgment will all my good looks and wonderful personality to Shirley Firanek. To Avo Vill and Tony Hall, I will my ability to wink.
- I, Rosie Brubaker, in my hopeless state of mind will my shyness to Danny Nelson and Dane Potch. To Kathy Bachman my seat on the school bus.
- I, Robert Fiscus, will my track shoes to Gary Carney, my humorous wit to Bob Rictor--who needs it, and my bad disposition to anyone who wants it.
- Terry Gebert, in my uncontrollable state of mind will my great ability to "drink and drive" to Eddy Schmidt.
- I, Cheryl Hale, in my garrulous state of mind will my looks, brains, and sparkling personality to someone who needs it--Reneesa.
- 1, Joan Howard, in my studious state of mind will my political convictions to Bob Richtor.
- Betsy Jennings, in my happy-go-lucky state of mind will all my enthusiasm for our great Jackson team to the up and coming J.H.S. boosters. To Herbie and Red Fuzz, I will all my "safe" driving habits.
- Jim Jaeger, in my play-boy state of mind, will my charming personality to Reneesa Hale, y canopener to Kent Nelson and access to my private library to the freshmen.
- I, Dale Lively, in my morbid state of mind, will all my good habits to Booner.
- I, Pat Noble, in my unpredictable state of mind, will my enthusiasm to get things done to the class of "67, and to Kent and Larry my ability to have a great time without playing "spin the bottle".
- Cindy Prescott, in my sound and intelligent state of mind, will my ability of bubble blowing to the "little boy" and my shortness to Dale Lively.
- Ray Scarborough, in my weak state of mind, will my ability to get along with girls to Herb Link, and ability to buy Fords to my brother Roy.
- Judy Shiyan, in my vegetable state of mind, will my long fingernails to Mr. Miller, and my height to Larry Peterman.
- I, Chuck Szymanski, in my muscular state of mind, will my ability to argue with Mr. Blosser to Ernie Pearson.
- I, Andy Winter, in my corrupted state of mind will my ability to throw chalk as straight as an arrow to Bob Richtor.
- We, the GREAT CLASS OF 1966, in our various states of mind, will to Mr. Larry Miller the best of luck in his future years of teaching. We wish to thank him for being our class sponsor, and putting up with our out-of-school anties.

"They said it couldn't be done; but we did it!"

The job of producing a yearbook is not easy, and too many people take for granted the book they receive.

This year as you skim through the book you will notice various changes and an increased number of pages.

This year many hours and sleepless nights were spent thinking of new ideas to make this JACKSONIAN bigger and better than before.

In addition to the yearbook staff, there are other people who deserve credit for their time and trouble. Our appreciation goes to Mr. Charles Kennedy for his cooperation and assistance. We wish to also thank Mr. Larry Miller, our sponsor, for his help with the selling of our ads, and with managing the various details involved. There are many who must go unheralded here, but not because of any lack of appreciation. There were teachers who allowed us to use their classrooms and facilities, students who interrupted their schedules to help on projects such as County Tourney, and various dances, and even those who just stopped in to give an encouraging word or smile—all have an integral part in this publication of the 1966 JACK SONIAN.

### THE JUNIOR CLASS HISTORY

The school year of 1965-66 marked a milestone in the path of the Class of '67. We started our Junior year with the receiving of our class rings—the symbol of an upperclassman. As Juniors we no longer "green freshies" or inbetween Sophomores, but experienced and responsible upperclassmen. We met many new academic challenges and participated in new realms of enJoyable experiences during the year in our sports and club activities. In fulfilling requirements of our academic work, we studied the problems faced by the Romans in Shakespear's play, Julius Caesar, worked dillgently on our term topics, and completed many difficult assignments. Those who were enrolled in the Chemistry and Algebra II classes found themselves immersed in a world of numbers and symbols. The year brought an experimental class, a Psychology/Sociology course, for those college bound students with extra study time. The one social even looked to with greatest anticipation was the Junior/Senior Prom. Many long and strenuous hours were spent on bake sales and dances which the class sponsored to raise the necessary funds for the affair. Plans are now being made for the Senior Trup we will be making next year. With able leadership and added experience we hope to make our Senior year a successful and happy one for the

### THE SOPHOMORE CLASS HISTORY

We who are Sophomores have learned to better adapt ourselves towards high school life. We're no longer just the beginning Freshman--we've progressed one step farther on the High School Ladder. We have advanced in the knowledge of our world from the early times to the present. Some of us found ourselves working many geometric problems dealing with congruency, theorms, and ratios. Others chose to build their major around general business or home economics.

Along with our academic courses many of our fine athletes have spent hours in practice to better their skills. While the boys were out on the floor or on the field the girls were cheering them on to victory.

Our extracutricular activities included a Halloween Dance and a Fish Fpy. The money we received from these projects went towards our class trip. A main event in our Sophomore year was the ordering of our class rings, which was the first big step in becoming upperclassmen. Next year we will be planning for the From and working towards our Senior Class Trip. Now, we hold the memories of all the fun we've experienced in our first two years at J.H.F.

### FRESHMAN CLASS HISTORY

Look as you may, you'll see no '69 "greenies" in our hallowed halls come next Segrember. That bewildered look that immediately classified us in the eyes of the upperclassmen has gone. We have survived Algebra, English, grasshoppers, and German I. We even had our names on the Honor Roll. Our fondest memory is, of course, Freshman Initiation. Dressing in burlaps sacks, wearing a catalog belt, and carrying a pacifier will long be remembered. Dodging Sophomores and bowing to those we met all were a part of our initiation into high school. We soon learned to adjust to high school life and recognized the responsibilities and fun that laid shead. We elected our first class officers: John Beschinski, President; Joellyn Lively, Vice-President; Elizabeth Erickson. Secretary: and Beek'n Baboook. Treasured.

We entered the social whirl of high school students by attending stag and couple dances and cheering for our team. We sponsored a "Sadle Hawkins" dance and held a Fish Fry during the year. The money received from these projects goes toward our Senior Trip. Towards the end of the year we gave the Sophomores a return party held at the Dunes State Park. This year has been one of new experience, new ideas, and new challenges. We look with anticipation on the coming years of high school at J.H.S. We have fond memories of our Freshman

year that has so quickly gone by.

## **FRESHMEN**

"Where did everybody go?"

"Let's hear it for the Freshman"

"I like pretty knee caps"

"Frosty Mist Queen" Judy Morris

"Chuck what are you doing with your Government book in Chemistry?"

"Who said I had big feet?"

"Were off to get the Fugal Hops" . . . etc.

"I have this problem . . . "

"What's in your locker, Boozter Club Pres?"

"Hmmmmm this is good"

CLASSES

# Biology

Biology is a branch of knowledge that deals with living organisms and vital processes. Students become accustomed to dissecting animals, identifying insects and plants, operating a microscope, and learning how the human body functions.

# Home Economics

Home Economics is the theory and practice of homemaking. Modern Living and Home Nursing presents the young homemaker with house-hold problems and child care. Clothing offers girls the opportunity to learn about different fabrics and to sew their own clothes. Those in cooking classes learn to prepare balanced meals and set proper place settings.

# Geometry

Geometry is a branch of mathematics that deals with the measurement, properties, and relationships of points, lines, and angles, surfaces, and solids. Students given a proper set of facts, can prove whether or not two triangles have the same shape or size. Ways of finding the sizes of angles, lines and the areas of various oblects are also discovered.

# Government Economics

Covernment is the study of the organization through which our political unit exercises authority and performs functions which is usually classified according to the distribution of power within it. With the current world critices shaping the lives of future citizens of the world, it is becoming more imperative that we understand the problems that confront us.

# Chemistry

Chemistry is the science dealing with the composition of materials and the changes in composition which these materials undergo. Balancing equations, performing experiments, and thinking in terms of valence are among the activities of chemistry students.

# Algebra II

Algebra is a generalization of arithmetic in which letters representing numbers are combined according to the rules of arithmetic. Mastery of mathematics is dependent on a sound understanding of Algebra. Because of its importance in modern living Algebra is studied in schools and colleges in all parts of the world.

# Latin

The student of Latin learns to derive the meanings of English words from the related Latin, as well as to appreciate Roman civilization as a source of many influences in modern life. He gains a background in grammar and vocabulary that will help him learn living languages.

# U.S. History

"Historians relate, not so much what is done, as what they would have believed."--B. Franklin U.S. History is the study of the development of our country. Students gain in the knowledge of our country's early beginnings, from its foundings to our basic form of government.

# 

# German

German is the fourth most widely used European language, following English, Russian, and Spanish. Those taking German learn the correct grammatical forms and the basic vocabulary. Many of our every day words are derived directly from the German language.

# Office Practice Shorthand

"Keep your feet flat on the floor, and sit up straight," is the admonition of the business department. By taking these courses, students are preparing themselves for a business career in which they learn and understand the needs of a general office.

# English

English is the worlds most widely spoken language and we are required to take four units. Sentence parts and structure are studied and then applied in composition. The students realm of reading is aided in the search of material for term papers and book reports. Short stories and auto-biographies provide opportunities to exhibit any writing skills we may possess.

# Typing

"Haste makes Waste."--B. Franklin Typing is the skill in using the typewriter. Speed and accuracy are the goals for students in this course. Contests and pins give the typing students the initiative to increase their speed and type without error.

# Mechanical Drawing

"He that has a trade has an Office of Profit and Honor." -- B. Franklin Today a young man must be skillful with his hands. In mechanical drawing, blueprints are planned and drawn by the steady and precise hands of future engineers and aero-mechanics.

# Physical Education

Physical education includes activities and sports of all kinds designed to improve posture, a physical development, and general fitness and health. Instructors advise the students on their needs, and help them develop their fitness. Grades are given on the basis of knowledge, attitude, sportsmanship and general fitness.

# Metal Shop

"Help, Hands; for I have no Lands."--B. Franklin Industrial arts makes it possible for boys to become skillful with their hands. In metal shop young men learn how to rivet, hammer, bend and weld metal.

# SCHOOL LIFE

# MARCHING PANTHERS

## "I pledge

My HEAD to clearer thinking,

My HEART to greater loyalty,

My HANDS to larger service,

My HEALTH to better living, for my club, my community, and my country."

The Four-H Club is a program for young people who take part in farming, homemaking, community service, and other activities. Four-H Club members learn to do by doing. They apply the latest scientific ideas to many projects as they search for better ways to do things in their homes and on their farms.

The 4-H motto is "Make the Best Better." The club also has 10 guideposts: (1) developing talents for greater usefullness, (2) joining with friends for work, fun, and fellowship, (3) learning to live in a changing world, (4) choosing a way to earn a living, (5) producing food and fiber for home and market, (6) creating better homes for better living, (7) conserving nature's resources for security and happiness, (8) building health for a strong America, (9) sharing responsibility for community improvement, and (10) serving as citizens in maintaining world peace.

'Someone had to warm the bench."

"Just wait until I get in . . . "

"Just think, not one error in 7 innings."

"Where did I put that ball?"

"When your winning it's easy to relax--Jackson 30, enemy 0."

"They make these bats bigger every year."

"Real good bench support."

"You say Jackson is ahead, Mr. Biggs?"

"Hope that fly ball comes down before the bulldozer arrives."

"Who's up next?"

"Look fella's, what we need is just a little more hustle!"

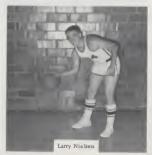

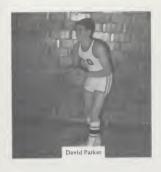

County Tourney was then anticipated. But as the Panthers were counting on a victory against the Boone Grove Wolves, the last 7 seconds proved fatal, leaving the Panthers 2 points behind.

Though the Panther team gained few victories this season the fans and boosters will never forget the great show of basketball and teamwork, displayed by a determined team.
